

Agile Dashboard - Backlog

Objectives

- ◆ Reduce the amount of informations on pages (performances)
- ◆ Do not try to mix several concepts on same view
 - ✓ → I don't care about current sprint content when I'm filling / organize / prioritize the Release backlog
 - ✓ → I don't care about stories tasks when I do poker planning
 - ✓ ...

Release View – Backlog of release 1/2

As a Product Owner I want to organise the backlog of the release

The screenshot shows the 'Release 6' backlog interface. At the top, there are three tabs: 'Backlog', 'Content', and 'tab'. Below the tabs, the text 'Stories to be done for Release 6' is displayed. The backlog is organized into a grid of story cards. Each card has a header with a parent ID and title, a main body with a user story description, and a footer with 'Remaining story point: X'. The cards are as follows:

- Row 1:
 - Card 1: Parent #213: Gerrit Integration, Story #23. Description: 'As a project admin, I want to be able to migrate repositories to Gerrit'. Remaining story point: 2.
 - Card 2: Parent #213: Gerrit Integration, Story #96. Description: 'As a Project Admin, I want to be able to manage permissions on Gerrit through Tuleap interface'. Remaining story point: 3.
 - Card 3: Parent #213: Gerrit Integration, Story #87. Description: 'As a user, I want my work pushed to Gerrit replicated on Tuleap'. Remaining story point: 3.
- Row 2:
 - Card 4: Parent #213: Gerrit Integration, Story #798. Description: 'As a User I want to be notified when a Tuleap repository is migrated to Gerrit'. Remaining story point: 1.
 - Card 5: Parent #723: Documentation, Story #82. Description: 'As a User I want Tuleap to provide a simple but complete documentation'. Remaining story point: 2.
 - Card 6: Parent #723: Documentation, Story #28. Description: 'As a User, I want the documentation to be available in multiple languages (at least French and English)'. Remaining story point: 3.
- Row 3:
 - Card 7: Parent #498: Mediawiki, Story #74. Description: 'As a project admin I want to be able to activate a Mediawiki service for my project'. Remaining story point: 5.
 - Card 8: Parent #498: Mediawiki, Story #65. Description: 'As a user, I want to be able to create a new page in the Mediawiki service'. Remaining story point: 1.
 - Card 9: Placeholder with a white plus sign on a grey background.
